

Remember...

**Every year
thousands of
New
Zealanders
leave for a
better life in
Australia!**

**Who can you
trust with
New Zealand's
future?**

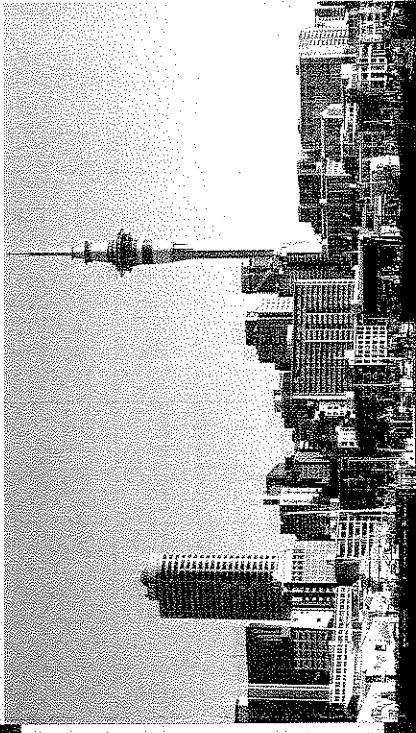

**We live in critical times.
It is not the time for
destroying the family unit
and stifling the economy.**

**What has Labour really done
for you in the last 6 years?
It's time for a trustworthy
alternative.**

**USE YOUR PARTY
VOTE to CHANGE THE
GOVERNMENT!**

Authorised by: S.A. Smith, Queens Road, New Plymouth.

**Who has the
foresight and the
credentials to bring
prosperity to
New Zealand?**

**...and has the integrity
and vision to lead our
great country forward?**

A NEW LEADER with integrity is urgently needed if New Zealand is to move forward and prosper!

LOW TAX - HIGH GROWTH

Lower taxes will return money to hard-working Kiwi battlers where it belongs.

Without the restraining shackles of over-taxation, our economy will boom - this means more jobs and higher incomes for us all.

EDUCATION

A new Government must ensure our kids learn to read, write and count before anything else.

Excellence in education will only return when action is taken to fix the NCEA system.

Social engineering and politically correct nonsense has no place in our classrooms. It has to go!

ROADING/INFRASTRUCTURE

Congested roads and an over-loaded infrastructure are strangling our economy and holding us back.

Choose a new leadership team that has the courage to spend roading money on roads and plan for growth and success.

CURE THE HEALTH SYSTEM

A new Government that really cares will have a strategy to provide New Zealanders with world-class healthcare.

Waiting lists must be slashed to minimise unnecessary suffering and prevent needless deaths.

SECURITY/LAW AND ORDER

Threats to our nation are real. A responsible Government would take terrorism and defence issues seriously.

Increased Defence Force numbers will provide new opportunities and greater discipline for our young people.

Decent law-abiding citizens will feel safer when violent criminals are locked away for their entire sentence.

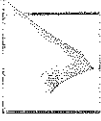

THE FUTURE

With gross foreign debt at \$152 billion our economy has been placed at serious risk.

Only a strong and carefully managed economy can enable families to plan for the future with confidence.

THE ONLY WAY TO GET AHEAD IS TO CHANGE THE GOVERNMENT.

Lower taxes, no healthcare waiting lists - lets go for it!

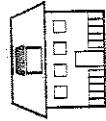

SENIOR CITIZENS

Are you worried about ...

Healthcare waiting lists?

Aged residential care?

Safety in your home?

Your superannuation?

The decline in values?

**THE LABOUR PARTY ISN'T
WHAT IT USED TO BE.**

They don't care about the elderly ...
... *except* in election year!

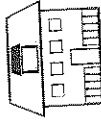

**VOTE FOR A PARTY THAT
CAN ACTUALLY CHANGE
THE GOVERNMENT!**

A new and caring Government would...

... fix the healthcare waiting list crisis so you can get that appointment and that operation when you need it.

... provide enough funding for quality aged residential care.

... make you feel secure in your own home by boosting frontline police numbers, fixing the 111 system and keeping violent offenders locked away.

... increase your income by lowering the tax on your Super.

... protect the sacred values of NZ's unique heritage – retain the flag, rebuild our defence force and restore the family as the cornerstone of our society.

Vote for a leader that will give us back honesty and integrity in Government.

**YOUR PARTY
VOTE IS
CRITICAL!**

**USE IT
WISELY.**

Fixing healthcare should be the top priority for a new Government!

- Fix waiting lists ✓
- Provide proper funding
for aged residential care ✓
- Review Pharmac ✓
- Cut bureaucracy ✓

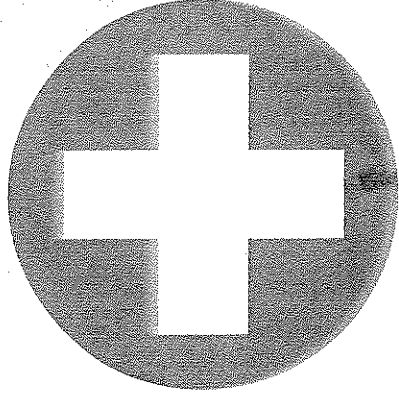

*If you are waiting for heart surgery, a cataract operation, knee replacement, hip operation or any other medical treatment
or just waiting to see the specialist ...*

DON'T GIVE UP!

**USE YOUR PARTY VOTE
TO PUT SOMEONE
ELSE IN CHARGE!**

HEALTHCARE

who cares?

**Fixing our waiting list crisis
will make a positive change
to 180,000 lives....**

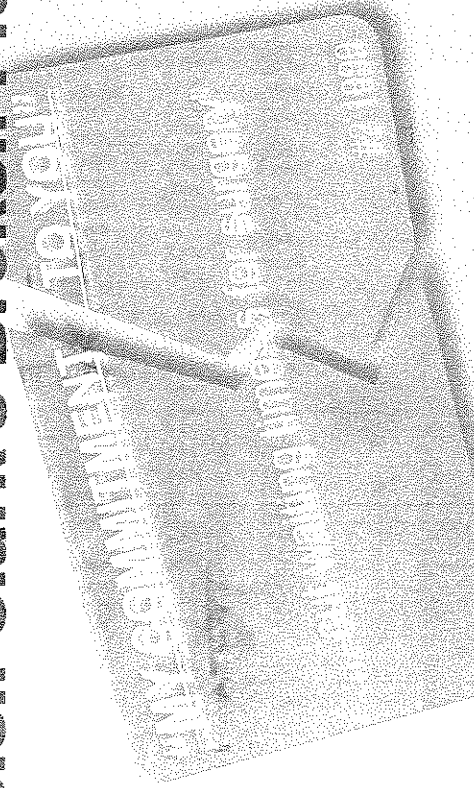

**There is a solution that will
work for you...**

67,000 additional operations could be done next year!

Private hospitals have the capacity and would work with our public hospitals to clear the backlog! The private system is fast and cost effective – let's use the common sense solution.

A good Government would stop the pain

Helen Clark's Broken Pledge

MINISTRY OF HEALTH STATISTICS 2005 **WAITING TIMES**

	Patient Numbers
waiting to see a specialist	120,000
waiting for surgery	60,000

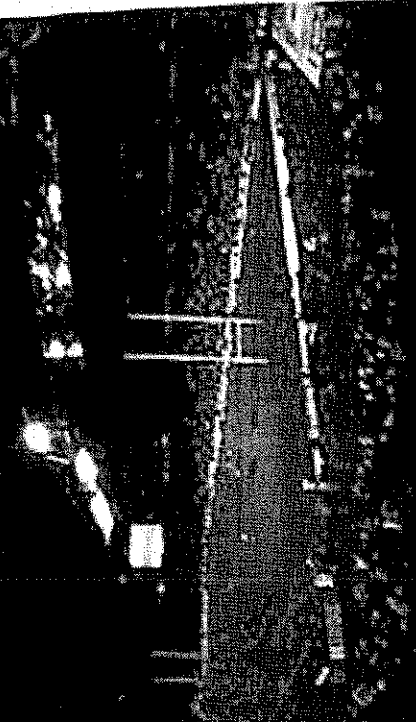

waiting to get on a waiting list	30,000
waiting over 2 years	2,138
waiting over 4 years	90
waiting over 5 years	15
waiting over 8 years	1

Total waiting list 2005 180,000

LABOUR CAN'T BE TRUSTED
TO FIX HEALTHCARE!
