

The schools listed below include state and state-integrated schools that have closed or been disposed of as the result of a merger since 1/1/1999.

It should be noted that it is the proprietor of a state-integrated school that closes the school rather than the Minister.

The vandalism has occurred between the date of closure and to the end of the disposal process.

Vandalism is defined as wilful damage to the buildings or site of a school that has resulted in payments being required for repairs.
