

Portobello Road – Proposed cross section

Portsmouth Drive end (looking north towards the harbour)

The above cross section relates to 560 m of the total 720 m road design, starting at the Portsmouth Drive end.

For the remaining 160 m of the road design, between residential property No.38 and Timaru Street, the landscaping and 2-way protected cycleway arrangement (above) changes to provide a service lane for residential properties and a 2-way protected cycleway.
