ABOUT INZBC

The India New Zealand Business Council [INZBC] is the premier trade organisation in New Zealand, which has been working since 1988 to build trade relations between India & New Zealand.

INZBC is run by industry leaders of New Zealand, who have years of experience in this sphere, thereby becoming the key stakeholders for International Trade Development of India & NZ.

INZBC has been recognised as the main industry body by both the governments of India & NZ. Almost all of the visiting delegations of Govt. of India have been hosted by INZBC, and we have organised networking events for them.

With members spanning across various industries, like agriculture, horticulture, dairy, infrastructure, finance, education, tax planning, etc.; the members form the mainstay of corporate leaders of New Zealand.

INZBC strives to help the industry to engage, interact and grow together. For further information please see following links:

<http://www.inzbc.org/>

OUR MEMBERS

Our corporate members include the leaders in almost all industry sectors of New Zealand.

For a full list, visit our website:

<http://www.inzbc.org/member-directory>.

WHAT WE DO

INZBC gives members a host of benefits, from more information to networking opportunities, more business ties, to getting a say with the policy makers.

All this and more benefits keep adding to the INZBC members. The INZBC activities are targeted at achieving our key objectives:

» To improve market access to NZ exports and help increase the country's exports.

» To facilitate kiwi businesses to do investments in India and promote, 'Make in India'.

» Open up New Zealand market for Indian products and services and help Indian businesses to invest in NZ.

ABOUT INZBC SUMMIT

INZBC Summit has become the cornerstone of the business events in Auckland. The summit sees an annual gathering of the top companies, policy makers and corporate houses, interested in the space of India-New Zealand trade.

After three successful years, in 2014, 2015, and 2016, INZBC this year has planned to focus on one of the most important sectors - Education, skill and technology.

We are partnering with India's leading business council, FICCI, to get a business delegation for the Summit.

To know more about the previous summits, go to the Summit micro-site.

ABOUT EDUTECH 2017 : KNOWLEDGE | SKILL | TECHNOLOGY

**Over 200 delegates to attend
High intensity event focusing on international education industry
Comprehensive insights from policy makers**

In the spirit of MOU signed with FICCI, INZBC presents fourth edition of its annual summit.

International education is New Zealand's fifth largest export industry, with a goal to achieve \$5 billion economic value by 2025.

India is New Zealand's second-largest and fastest-growing source country for international students. Post-study opportunities continue to be in high demand as Indian students seek pathways for employment and migration. New Zealand's Private Training Establishments (PTEs) attract the largest number of Indian students, driven largely by migration pathways.

Skill India

Skill India is an initiative of the Government of India which has been launched to empower the youth of India with skill sets which make them more employable and more productive in their work environment.

The National Skill Mission is chaired by the Hon'ble Prime Minister, Shri Narendra Modi himself.

India is a country today with 65% of its youth in the working age group. If ever there is a way to reap this demographic advantage, it has to be through skill development of the youth so that they add not only to their personal growth, but to the country's economic growth as well.

The new programme aims at providing training and skill development to 500 million youth of India by 2020, covering each and every village.

Technology

Technology is not only fueling major business transformation across industries, it's also changing how technology enterprises sell their products and services, operate, and plan for future growth. Technology is the backbone of the digital economy. The rate of change and the level of disruption driven by modern technology are exponential.

ABOUT EDUTECH 2017 : KNOWLEDGE | SKILL | TECHNOLOGY

Like past few years, the fourth edition of the annual summit will witness over 200 leaders from India and New Zealand.

The audience will comprise of:

- Policy makers from the government, education sector, Immigration New Zealand, etc.
- Business leaders from education industry
- Representatives from the Universities of New Zealand & India.
- Representatives of education, skill and technology sectors
- General business community would be invited to grace the event.

Expect nothing but the stellar lineup of keynotes and presenters whose passion and expertise will surely arm you with the essential knowledge.

Summit will have focused sessions emphasizing on policy roadmap and other topical issues in Higher Education. The event will be one of its kind forum to meet, interact with educationists, institutions and companies and explore new channel partners.

Some areas to be explored at the event:

- Education industry solution providers
- Policies - Listen to policymakers
- Perspective on Learning and Innovation Priorities
- EdTech Start-Up Firms from India and New Zealand
- Knowledge Transfer: Exposure to global best practices
- Networking: Explore collaborations with domestic/foreign partners
- Collaboration of education with Indian & NZ education providers.

Opportunities lying for both economies

There are six education agencies directly involved in the management of New Zealand education sector. They are:

- New Zealand Qualifications Authority (NZQA)
- Ministry of Education
- Tertiary Education Commission
- New Zealand Teachers Council
- Education Review Office
- Careers New Zealand

Summit will underline how each agency can help to improve the situation in the sector.

FICCI Higher Education: A Brief Overview

Established in 1927, FICCI is the largest and oldest apex business organization in India.

FICCI plays a leading role in policy debates that are at the forefront of social, economic and political change.

Through its 600 professionals, FICCI is active in 70 sectors of the economy.

A nongovernment, not-for-profit organization, FICCI is the voice of India's business and industry. FICCI works closely with the government on policy issues, enhancing efficiency, competitiveness and expanding business opportunities for industry through a range of specialized services and global linkages.

FICCI has been playing a proactive role in the Higher Education sector for more than a decade and a half and has been the first industry association to advocate reforms in the sector by carrying out research, surveys, and studies.

Some of the ongoing initiatives of FICCI Higher Education Committee are:

- FICCI is actively involved in the Planning and Reform Process by being with engaged with the Union Ministry of Human Resource Development (MHRD) , Ministry of Commerce of Industry, NITI Aayog and various state governments.

- FICCI has been pro-actively participating in the development process by initiating

activities like creation of the National Functional Knowledge Hub (NKFH) to facilitate Industry - Academia linkages with the aim to improve the quality of graduating students. In this regard, FICCI and Royal Academy of Engineering (RAEng), UK have partnered under "Newton Bhabha Innovation Fund" which builds science, innovation and R&D ties between India and the UK.

- FICCI plays a critical role in the Internationalization of Indian Higher Education by organizing overseas missions and hosting foreign delegations in India. The recent years have witnessed some very high powered overseas delegations of Indian Higher Education Leaders many of which were led by senior government officials and industry leaders.

- FICCI has been organizing a Global Higher Education Summit and Exhibition for the last 12 years which has become one of FICCI's signature events and a sought-after platform in whole of Asia. The Summit brings together key stakeholders including policy makers, educationists and industry for deliberations and knowledge sharing and provided a forum for facilitating partnerships and effective collaborations. Senior higher education leaders from more than 75 countries have participated in the Summit.
