

Save Our Beautiful St. Heliers Village

Not Another Maheke St. Monstrosity!

Have Your Say and Show You Care

Join us at the Maheke St. Demonstration

Friday 11 November and Saturday 12 November (From 10:00 am)

Place: Across the Road Opposite the Maheke St. Building

This demonstration is organised by Save Our St. Heliers which was formed to help preserve the character of our beautiful Village.

We have been advised by an Auckland Council planning officer that there is nothing to stop more 'Maheke St. like buildings' being built in St. Heliers Village. To stop this from happening and to preserve the character of our Village we need to **TAKE ACTION NOW.**

Please Lend Us Your Support and Be There!

Bring Your Placards!

What we want to achieve with the Demonstration (See Next Page)

We need to bring pressure on the Auckland Council to:

1. Provide Public Notification of all applications for development in St. Heliers Village with immediate effect.

We need to know what is being planned in our Village so we can tell the Council what we think. We have the right to be heard and not just the property developers.

2. Change the existing St. Heliers Centre Plan to include:

- a. Public Notification of all property development applications.
- b. Height Restrictions on the buildings that can be built in the Village i.e. less than 9 meters or 2 storey high.
- c. A requirement that new buildings should be keeping with the style and building material like the rest of the Village.
